The following is an examiner's statement of reasons for allowance:

The applicant's remarks filed December 18, 2007 have been considered. However the examiner agrees with the applicant that the prior art of record does not teach a fixing bracket coupled with an edge of the rear of the screen, a supporting bracket provided with an inclined rib having an inclined surface inclined along a transverse direction to a rear surface of the screen and facing the rear surface of the screen, the inclined rib being seated on a rear of the fixing bracket.

Chen (U.S. Pat. No. 7,315,417) is relevant prior art however Chen does not teach, in combination with the additionally recited features, a connecting bracket or a plurality of connecting brackets to connect a supporting bracket and a fixing bracket.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
